PAGE 12. Whereas, complaint hath been made to us the subscribers, Commissioners of the Highways, that the road from Caleb Loper's to North Sea, and also from the Clay Pit Water or Run down to the harbor at Jeffery's Creek, were too narrow, began below Matthew Scott's house and find the road from said Scott's land across to Samuel Jennings' corner too narrow, and all the way from said Jen-

nings' corner to the south-east corner of Williamson's lot we find the road too narrow, and we have directed the owners on each side of the road to throw out their land and to leave three rods for the road, which they have agreed to do. Then we proceeded to Joel Reeves' corner and find the road too narrow almost all the way, until we came to the house of David Rose, Esq., and we directed the owners to throw out their lands and make the road three poles wide, which width we have established the road to be from the Clay Pit water aforesaid, all the way down to the harbor at Jeffery's Creek. Have also established the road from North Sea to Sag-Harbor to be and remain three poles wide, and wherever we have found the road too narrow any where between North Sea and Caleb Loper's we have ordered the owners of the land adjoining to throw it out and leave the road three rods wide. On the eleventh day of March, 1813, we, John P. Osborn and William Herrick, two of the Commissioners as aforesaid, notified John Haines, Samuel Jagger, Benjamin Haines and Joel Reeves, to throw out their lands which they had taken out of the road, and each of them agreed to make the road three rods wide against their lands and meadows and to have it finished by the first day of May next. Thus we have established the road as aforesaid from the Clay Pit water to the harbor at Jeffery's Creek, three poles wide. This is our return, made the eleventh day of March, 1813.

For the said Commissioners upon view of the premises and by the oath of Edward

PAGE 75. Whereas, a petition dated the 29th day of September, 1829, from sundry inhabitants of Southampton, in the County of Suffolk and State of New-York, was presented to Cephas Foster, David R. Rose and Cephas Jagger, Commissioners of Highways for the town of Southampton, stating that a certain public road in the said parish of Southampton, described by the said Commissioners as a road uniting with and leading from the main country road

at Aspattuck brook by the north of Ketchebonnuck and Potunk, and leading round by great and little Onuck into the highway, and uniting again with the main country road at Beaverdam, had been obstructed and shut up by a private individual by the name of Nelson Sweezy, and praying that the said road might be opened.

And whereas the said Commissioners did thereupon, on the 20th day of October, in the year aforesaid, meet to determine whether the said road was a public highway and whether the same ought to be opened, and did then decide and adjudge that the said road was a public highway by its having been used as such for twenty years or more preceeding the 21st of March, 1797, and did thereupon order the said road to be opened agreeable to the petition aforesaid. And whereas the said Nelson Sweezy did on the 23d day of October aforesaid, appeal from the decision of the said Commissioners to three of the Judges of the Court of Common Pleas in and for the said County of Suffolk. Now to all to whom it may concern, know ye that we the undersigned, three of the Judges of the Court of Common Pleas, in the County of Suffolk aforesaid, after hearing the proofs and allegations of the parties, do adjudge that the said road is a public highway from its having been used as such for twenty years or more previous to the 21st of March, 1797, and do therefore affirm the doings of the aforesaid Commissioners.

And if the same is not by said deed conveyed to him, his heirs and assigns, I do by these presents quit claim the same to him, his heirs and assigns forever.

In witness whereof I have hereunto set my hand and seal this sixth day of July, 1827.

PAGE 141. At a meeting of the Commissioner of Highways, of the town of Southampton, in the county of Suffolk, held in said town, at the house of Richard Gelston, on the 9th day of November, 1850, all the Commissioners having met and deliberated upon the subject of this order, it appearing to the said Commissioners that the road in said town used as a highway, and leading from Bulls Head to the beach, has been laid out, but not sufficiently described of record, it is ordered by the said Commissioners that the said road be ascertained, described, and entered of record. And the said Commissioners do further order that the description, courses and distances of said road, be according to a survey which they have caused to be made of the same as follows :

Commencing at a brown stone, two feet east of the N. E. corner of Dr. Gardiner's barn or carriage house at Bulls Head, where the said road is 184 links wide, and running S. 15 degrees, 15 min. W., 15 chains and 3 links to a stone at the north line of the school house lot, opposite the S. W.

W., 17 Ch. and seventy-three L. to a stake or stone, opposite the willow tree at Hacker's Hole; thence S. 10 deg. 45 min. Levi Howell's garden; thence S. 15 deg., W. 20 Ch. and 86 L. to a stake or stone near John Lupton's; thence S. 28 deg. 30 min., W. 11 Ch. and 27 L. to a stone or stake, where the road is seven rods wide, and being of this width from the school house aforesaid, to this last mentioned stone or stake; thence S. 28 deg., 30 min., W. 17 Ch. and 6 L. to a stake at Mr. Henry M. Chatfield's corner, where the road widens to 3 Ch. or 12 rods; thence S. 5 deg. E., 8 Ch. and 80 L. to a stake west of John N. Hedges' barn, where the road is three rods wide; thence S. 11 deg. 30 min. E., 16 Ch. 96 L. to a stake at Thomas H. Cooper's fence in the Beach Lane; thence S. 9 deg. W., 14 Ch. and 14 L. to a stake at the division line between the lands of Thomas H. Cooper and the lands of George Halsey; thence S. 4 min. W., (4) 10 Ch. to the beach banks, the road at Mr. Chatfield's beach fence being 91 L. in width. The above described line is the west line of the said highway leading from Bulls Head to the beach, it being at that place 1 Ch. and 84 L. wide, thence narrowing to seven rods at the school house continuing the width of seven rods from the school house to the stake or stone between John Lupton's and Henry M. Chatfield's, then wid-

ening to 3 Ch. or 12 rods opposite the said Chatfield's corner, then narrowing to three rods, to the stake or stone west of John N. Hedges' barn, and continuing of this width to the stake in the Beach Lane, at the line between the lands of Thomas H. Cooper and George Halsey; thence widening to 91 L. at the bottom of Chatfield's beach lot.

And the said Commissioners do further order that the description, distances and courses of the road leading west from the said Henry M. Chatfield's be according to a survey they have caused to be made of the same, as follows, viz: Commencing at a stake at H. M. Chatfield's, on the west line of the road leading from Bulls Head to the beach, (where it is 10 rods wide) and running N. 88 deg. W., 11 Ch. and 70 links to a stake at an angle in road; thence N. 71 deg. 30 min. W., 4 Ch. and 78 L. to a stake at the line between the lands of said Chatfield, and the lands of Isaac Hildreth where the road is 5 1-2 rods wide, and it being 8 rods wide at the place where the road leading by the house of Job H. PAGE 164. SUFFOLK COUNTY, SS:

Whereas, on the 9th day of November last John White appealed to the County Judge of said County, from the order and determination of the Commissioners of the town of Southampton, in said County, made on the 13th day of

May, 1853, and filed in the office of the Town Clerk on the 27th day of October last, purporting to ascertain, describe and enter of record certain roads therein mentioned; and whereas the said County Judge, on the 27th day of April last, at the house of Chas. Howell, in said town, in pursuance of an appointment for that purpose duly made, did attend and hear the proofs and allegations of the parties on such appeal. Now the said County Judge does hereby determine that so much of the said order and determination as purports to ascertain and describe the road beginning at the west end of Job's lane at the south-west corner of the home lot of the heirs of Stephen Sayre and running to the house of Augustus Reeve, and also the road leading from the north-west corner of the homestead of Barney R. Green to the north-west corner of the homestead of Meritt Culver be *affirmed*. And that so much of the said order and determination as purports to ascertain and describe the road leading from the house of Augustus Reeve to the house of John White be *reversed*. It appearing to said County Judge that such order reversed does not correctly describe the said road as it has heretofore existed.

In testimony whereof I, William P. Buffett, County Judge of said County, have hereunto set my hand this 8th day of May, 1854.

W. P. BUFFETT.

PAGE 186. Whereas an order of the Commissioners of Highways, of the town of Southampton, in the County of Suffolk, was made and filed on the 22nd day of July, 1856, in relation to a certain highway in Quogue, in the said town of Southampton, which they ascertained and described as having been a highway, by having been used as such for

twenty years upward, preceding the 21st day of March, 1797, the description and location of which road or highway, as so ascertained by them, is contained in the said order, as also in the petitions or notices of appeal hereto annexed.

And whereas Frederick Hallock and Edward Griffin of the said village of Quogue, have within the limited time therefor, respectively appealed from the said determination and order of the said Commissioners, to the undersigned County Judge of the said county of Suffolk, which appeal is hereto annexed. Whereupon the said County Judge did give due notice to the appellants, and the said Commissioners that he would hold a court for the hearing of said appeal, at the house of John A. Post, in the said village of Quogue, on the 19th day of August, 1856, at 9 o'clock in the forenoon; at which time and place, the said parties appeared before him with their respective counsel; and after receiving the premises described in the said order and after hearing the proofs and allegations of the said parties, the said County Judge came to the following conclusion or determination, viz :

That there is every reason to believe *prima facie* from the survey the Commissioners have made of a short section of the main post road, lying immediately east of the said village of Quogue, extending in length a little over half-a-mile, making seven angles therein, and the width of the road varying at the respective angles from 12 rods wide to 5 rods wide; that they have erred in the conclusion they arrived at, viz: That this irregular and varying tract had been used as a highway for 20 years previous to 1797, and thus became a highway, and so it turned out in the evidence and investigation had in the appeals. Quite a portion of this road runs through the woods opposite the

premises of Frederick Hallock, one of the appellants. The present track of the travelled road runs on the north edge or margin of the highway as surveyed and described by the commissioners, and it appeared by the evidence, that this had been the travelled track from time immemorial, and here the commissioners, by their survey make it 10 and 12 rods wide, embracing on the south side of this track a large quantity of heavy pine timber, where there is no evidence or indication of any old or former road or tracks, except those going southerly down to the Neck, and where there was an utter failure to produce any such evidence. And further, to show conclusively, that the Commissioners were wrong in the conclusion they came to and in the said order, by running out the lines on each side of the said road or highway as they have given them in the said order, the north line or boundary of the said highway, necessarily runs directly through the enclosed orchard, garden and front door-yard of the said Edward Griffin, one of the appellants, and a part of his home lot, and the south line or boundary also runs through the enclosed home lot of the said Frederick Hallock, this the Commissioners acknowledged on the hearing of the appeal; but said they did not know that their survey and order would have such an effect and that they did not intend any such thing.

Still such is the fact, and so far as this is the case the order of the commissioners must necessarily be reversed, and upon a view of the whole matter from the evidence adduced before me on the hearing of these appeals; I am constrained however, reluctantly to reverse the whole order of the said commissioners in regard to this highway. In the mean time the County Judge does not feel himself authorized by the act to alter or define this road himself as he thinks the same ought to be altered or defined. All he

can do therefore, as it is certainly desirable that this at present indefinite highway should be ascertained, described and entered of record is to recommend to the Commissioners of Highways under the power and duty conferred upon and required of them, in the 3rd sub-division of the 1st section of the act regulating highways and bridges, in the counties of Suffolk, Queens and Kings to try again to ascertain, describe and enter of record, the highway in question, and in doing so not to have the same exceed 4, or at the most, 6 rods in width, and to run the same as straight as practicable. The undersigned believes this would satisfy all parties in the immediate vicinity of this road and the people of the town generally.

PAGE 189. Whereas, an order of the Commissioners of Highways of the town of Southampton, in the County of Suffolk, a copy of which is annexed hereto, was made the 25th day of July, 1856, in relation to the south end (of) a portion of a certain highway in the village of Quogue in the said town of Southampton called Quogue Lane leading from the post road to the beach, and whereas Oliver Post, of the said village of Quogue, did on the 4th day of August, 1856, appeal from the determination and the said order of the said commissioners to the undersigned County Judge of the said County of Suffolk, which appeal is also hereto annexed. Whereupon the said County Judge did give due notice to the appellants and the said commissioners, that he would hold a court for the hearing of said appeal at the

house of John H. Post in the said village of Quogue, on the 19th day of August inst., aforesaid, at 1 o'clock in the afternoon, at which time and place the said parties appeared before him with their respective counsel. And after viewing premises described in the said order, and after hearing the proofs and allegations of the said parties. the said County Judge came to the following conclusion and determination, viz :

That the said commissioners erred in alledging or ascertaining that a portion of the said Quogue Lane at the south end, though of a width of eight rods and 4 links, as described by them in their said order, had been a public highway by usage for 25 years, the appellant in this case having shown a good and satisfactory title to the same, up to about where he has recently run his fence adjoining the said highway or lane on the east side thereof ; and that the legal and proper width of the said highway is and should be, three rods from the said post-road, through to the beach or banks. The said determination or order of the said commissioners in this matter is hereby reversed.

In the mean time the undersigned would suggest and recommend to the appellant, to change or alter his new fence commencing at the east side of the lane at a fence running easterly to Ogden's pond, so as that the said new fence shall run within, or east of the present foot-bridge across the ditch or creek. This alteration should be made for the accommodation of the public ; as it is impossible to say with precision where the exact line or boundary of the said highway or lane there should be.

We the Commissioners of Highways of the Town of Southampton aforesaid, (all of the Commissioners having been duly notified to attend and deliberate upon the subject of this order) having ascertained that the public highway in said town, leading from the Indian land at Sebonack to the Millstone Brook road, is encroached upon on the south side thereof, along the lands in the occupation of Franklin Fanning and Nathaniel Fanning by a fence erected by the present, or some former occupant of the said premises, which fence forms a part of the enclosure of the said land; and having caused the said highway to be surveyed, and having ascertained the following described line to be the line of the road as follows, to wit:

Commencing at the Indian land at the S. W. of the land of Edward White, and running along the northerly side of said road N. 54 deg. E. 12 chains to angle in valley nearly opposite the house of — Fanning; thence N. 76 deg. 30 min. E. 7.95, to angle in said road at the corner of Edward White's front door-yard fence; thence 27 deg., 30 min. E., 6.50, to stake in ditch directly opposite or near ditch of — Fanning; the line heretofore described being the north line of a five rod highway. We now commence running on the south line of said highway, commencing at a stake in Fanning's new ditch and running S. 69 deg. E. 11.78, to stake on knoll and from thence on the same course until it strikes the Mill Stone Brook road; the above described highway being five rods wide all the way from the Indian to the Mill Stone Brook

It is therefore ordered by the undersigned commissioners of the said town of Southampton that the said fences be removed, so that the said highway be open and unobstructed to the width of five rods.

PAGE 213. Before J. Lawrence Smith, County Judge of Suffolk County, in the matter of the appeal of Edward Griffin from an order of the Commissioners of Highways of the Town of Southampton.

The Commissioners of Highways of the Town of Southampton, made an order on the 31st day of March, 1857, reciting that whereas a road leading from Great Creek to Little Creek in said town, now used as a public highway, was laid out on the 10th day of December, 1757, but not sufficiently described of record, and ordering that said road be ascertained, described and entered of record, according to a survey which had been made under their direction, and they therein described the said road by courses and monuments.

The road was not at the date of the order, of the width called for by the record, it having been encroached upon by the fences on either side, and as described by the Commissioners, would if opened, run through a part of the enclosure of Edward Griffin, and he appeals to the County Judge from said order.

I visited the premises on the 20th of April last, and was

attended by the appellant and the commissioners and by their respective counsel, and heard the proof and allegations.

A preliminary question was raised by the counsel of the commissioners touching my jurisdiction in this matter, and I took the proof subject to this objection. The County Judge is an officer of limited jurisdiction, he possesses no power except such as is conferred by statute. We must go then to the statute to ascertain whether he has power to hear and decide this appeal. The act relating to highways in Kings, Queens and Suffolk Counties passed Feb. 23d, 1830, defines the powers and duties of Commissioners of Highways. By reference to this statute we find their powers and duties to be various, and among them (§ 1 3) is the power to ascertain, describe and enter of record, such highways as have been laid out and not sufficiently described.

The Commissioners acted under this clause in making the order appealed from, every decision of the commissioners is not the subject of appeal. Section 66 of the statute, as amended (Laws 1857, p 422) provides "for appeals to "the County Judge by any person who shall conceive himself aggrieved by any determination of the Commissioners "of Highways in laying out, altering, or discontinuing, or "in refusing to lay out, alter or discontinue any road, or in "regulating, or refusing to regulate any public landing, or "watering place, or in determining, or refusing to determine that any road hath become a public highway.

Here then, are clearly defined the cases over which the County Judge has jurisdiction by appeal, and unless this section embraces the case in question, the appeal and all proceeding under it, are void.

Whether the Legislature intended to give an appeal in a

case like this, and unintentionally omitted to do so, may be questionable. There are perhaps many reasons to lead us to suppose that they did not. The question to be decided does not embrace any legal principle. It is a simple question of fact, as to where the road originally ran, a question upon which the commissioners who are presumed to act disinterestedly and who are familiar with the parties, the witnesses and the locality, can decide more intelligently and accurately than any judge or lawyer. But whatever may have been the reason for the omission, it is sufficient for the purpose of this case, that after a careful examination I am fully persuaded it does not come within the provision of the statute above cited, and having failed to find in the statute any other provision giving me jurisdiction over it, I cannot make any order in the premises.

It may be a satisfaction to the parties, and I may therefore perhaps be pardoned for volunteering to add that in cases involving purely questions of fact, the unanimous determination of the commissioners ought not to be disturbed unless it is made to appear that they acted unintelligently, or were affected by interest or prejudice, or their determination is very strongly against the weight of evidence. I listened to the evidence in this case with much attention, and although it was conflicting on the subject of the location of the old track, I failed to find in it anything which satisfied me that the Commissioners erred in making the order appealed from.

Suffolk County,)

Whereas the act regulating highways and bridges in the Counties of Suffolk, Queens and Kings, passed Feb. 23, 1830, makes the duty of the Commissioners of Highways of the several towns in those counties to cause such road used as highways, as shall have been laid out, but not sufficiently described, and such as were used as highways for twenty years preceding the 20th day of March, 1797, and which shall have been used and worked as such constantly for the last six years but not recorded, to be ascertained, described and entered of record in the Town Clerk's office.

And whereas the same act gives the said Commissioners power to discontinue such old roads and highways as shall appear to them on the oath of or affirmation of twelve freeholders of the town, to have been unnecessary. And whereas application has been made to the undersigned Commissioners of Highways of the said town by twelve freeholders of the town (which application or petition is verified by oath) asking the said Commissioners to survey, define and lay out, the road known as Sagg Street, extending from the Country Road to the house of Henry, and to discontinue all that portion of the present, over five rods in width, as useless and unnecessary.

Now, therefore, we the undersigned Commissioners, all of the said Commissioners having been duly notified to attend and deliberate upon the subject of this order, do hereby order, determine and certify that the aforesaid highway extending from the Country Road to the house of Henry White, shall be of the width of five rods, or according to the following survey, to wit :

Commencing at a stake on the south side of the Country

Road, and running South 10 deg. W. 40 ch., 08 links to stake on the hill opposite, or nearly opposite the tenant house of Hiram Sandford; thence S. 2 W. 22 chains, 24 links to stake in Daniel W. Haines' ditch opposite the barn of Henry Roscoe; thence S. 3 deg. W. 11 chains and 58 links to stake nearly opposite the house of Hiram Sandford; thence South 20 chains, 74 links to stake, at angle nearly opposite the house of Josiah Rogers; thence S. 11 deg., 30 min. W., 9 chains and 65 links to stake at angle nearly opposite the house of Jeremiah C. Hedges; thence S. 27 deg. W. 14.69, to stake at angle, the above described line is the west side of a five rod highway, extending from the point of commencement on the Country Road, to the last mentioned angle nearly opposite the house of Alonzo White; from thence southerly, the road widens as far as the north line of the grave-yard; the eastern line of the said widening being a line drawn from the last mentioned angle to the south-west corner of the late Ebenezer White's home lot, the corner of said line being S. 14 deg., 30 min. W., and distance five chains; we then start the said last mentioned angle and run S. 38 W. 5 chains and 88 links in continuation of the west line of the said highway to stake at angle opposite the N. W. corner of the grave-yard, where the road is five rods wide; thence S. 29 deg. W., 7 chains, 34 links to stake at angle a little south of the house of David Pierson, thence S. 35 W. 6 chains, 39 links to stake near the house of Henry White, at the east end of the lane leading to Sagg Pond, where the road, as also at the south end of the grave-yard, is five rods wide, we then commence at a stake on the east side of the said five rod highway on the dividing line between the Poor House farm and the land of Halsey Hildreth, and run N. 48 deg. E. 4 chains and 94 links to stake in said Halsey Hildreth's ditch opposite the

south-west corner of the grave-yard, as the eastern or south-eastern line of that part of the Highway.

And we the said Commissioners, do further order and determine, that all such portions of the old road or highway, leading from the Country Road to the house of Henry White that lies west of the above described five rod road, and also all such portions of the said described five rod surveyed road ; and south of the above described line at the Poor House, running N. 48 deg. E 4 chains and 94 links are hereby discontinued.

In witness whereof, we the said Commissioners have hereunto subscribed our names this, the 2nd day of June, 1858.

PAGE 217. Before the County Judge of Suffolk County, in the matter of appeal of David Pierson, from an order of the Commissioners of Highways of the Town of Southampton, reducing the width of Sagg Street.

The Commissioners of Highways of the Town of Southampton, having heretofore made an order reducing the width of Sagg Street to five rods, and David Pierson having appealed pursuant to the Statute, to the County Judge, from so much of said order as directs the said road from the

main angle, nearly opposite Jeremiah Hedges, leading or running southerly as far as the burying-ground, to be cut down from its present width to five rods wide; a copy of which order and notice of appeal is hereto annexed. And the County Judge having thereupon assigned a time and place for hearing said appeal, and having caused a notice thereof to be served pursuant to the Statute, and having attended on the part of said road appealed from on this fourth day of August, 1858, at 7 o'clock in the afternoon, the time and place so assigned and having been attended by the said appellant, and to the road commissioners and their counsel, and heard the proofs and allegations of the parties and deliberated thereon, doth decide as follows :

The order simply reduces the road to 5 rods in width without naming courses and distances, but the map produced by the Commissioners on the hearing, indicates the lines established by them. The road as thus located, will tend greatly to injure the appearance and mar the beauty of the street. They have substituted crooked lines for lines now apparently straight. There are now curves in the street it is true, but owing to its great width they are not perceptible.

When the road is reduced in width the angles will become more prominent, and I am quite satisfied that should the fences be erected on the lines proposed by the Commissioners, the community would be dissatisfied with it. It is plainly the duty of the Commissioners to make a highway as nearly straight as possible when they can do so conveniently. The Commissioners in this case were actuated by the very laudable desire to equalize as much as possible among the adjoining owners, the surplus lands. But whilst they should zealously guard the interest and respect the wishes of individuals, they ought always to bear in mind

that in such cases, those interest and wishes must give way to the public good. I think it decidedly for the interest of the public that the road should be located as indicated by the appellant in his notice of appeal, and I therefore deem it my duty to reverse so much of the order as is appealed from.

It is therefore ordered that so much of the said order, as directs the said road, from the main angle nearly opposite Jeremiah Hedges, leading or running southerly as far as the burying-ground, to be cut down from its present width to five rods wide, and the same is hereby reversed. PAGE 224. Before the County Judge of Suffolk County.

In the matter of the appeal of David Pierson, from an order of the Commissioners of Highways, of the town of Southampton, reducing the width, and locating the west line of Sagg Street.

The Commissioners of Highways of the town of Southampton, having made an order (without date) posted April 6th, 1859, locating the east and west lines of Sagg Street, southerly from the main angle opposite the house of Jeremiah Hedges, and discontinuing all such portions of the old road or highway, as are not included between the said two lines, and David Pierson having appealed from so much of the determination of the Commissioners as directs the closing up to five rods in width of that portion of the original road known as Sagg Street, and embraced in his former appeal, lying between the main angle of said road, nearly opposite Jeremiah Hedges, extending or running southerly some 10 or more rods to an angle made by themselves (in their survey) opposite Jeremiah Hedges' house, and from this latter point starting and extending their lines Southerly instead of starting them directly from the main angle of the aforesaid original road, nearly opposite Jeremiah Hedges, in conformity with his former appeal, and the decision of the County Judge on the same, on the 4th day of August last, a copy of which order and notice of appeal is hereto annexed. And the County Judge having thereupon assigned the 11th day of July, 1859, at 2 o'clock P. M. on the said highway opposite the house of Jeremiah Hedges, as the time and place of hearing said appeal, and having caused notice thereof to be served on one of the Commissioners of Highways of said town, pursuant to the statute.

And having attended at the time and place so assigned,

and been attended by said appellant and by all of said commissioners and their counsel, and heard the proofs and allegations of the parties, and having deliberated thereon, doth decide and order as follows :

The whole difficulty in this case seems to have arisen from a difference of opinion between the parties as to the true construction of my former decision and order, made on an appeal relative to this same road, and dated Aug. 4, 1858.

That decision reversed so much of the order of the commissioners (posted June 11th, 1858) as directs the said road from the main angle nearly opposite Jeremiah Hedges running southerly as far as the burying-ground, to be cut down from its present width to five rods wide.

The question now between the parties is, What was the main angle intended by that decision? The Commissioners contend that it was an angle made by them in their survey directly opposite Jeremiah Hedges' house, this angle appears very prominently on both of the maps filed with their former order and with the order now appealed from.

The appellant contends that the main angle is directly opposite the south end of Jeremiah Hedges' cow house. I have taken testimony as to where the main angle was at the time of the making of the former order of the Commissioners and this testimony, together with the location of the premises and the shape of the several wagon tracks which traverse the road in that vicinity, leave no doubt in my mind, and I now decide that the main angle on the west side of said highway as it was at the time of making the first order, was about two feet southerly of, and very near to the southerly end of Jeremiah O. Hedges' cow house. And that the line running south 11 deg. 30 min. west in the two surveys of the said commissioners should have termi-

nated at a locust post at the end of the board fence lately erected by said Jeremiah Hedges, which post is on a line drawn parallel to, and about two feet southerly of said cow house. The objection raised to the former order was that the lines and points adopted by the commissioners, rendered the angles prominent, and made a crooked road of one before apparently straight. The whole order was not appealed from, and it was therefore in my power entirely to obviate this objection, but my decision was intended to obviate it as far as possible for me to do so. The construction put upon that decision by the commissioners, will prevent it from affecting the purpose intended, and leave the most objectionable feature of the lines adopted by the commissioners even more prominent than before. I think they erred in adopting the angle made by them as the main angle, and starting their new lines from that point. I therefore, am compelled again to reverse the decision as to the west line. The east line does not appear to be objected to and is not appealed from, except (perhaps) so much of it as is embraced between the post above indicated, and the main adopted by the Commissioners and as to that part, I see no utility in, or necessity for disturbing it.

It is therefore ordered that so much of said order made by the Commissioners of Highways of the Town of Southampton. Recorded and posted April 6th, 1859, as determines and directs that the west line of the road known as Sagg Street, in the said town of Southampton, between the angle opposite the house of Jeremiah O. Hedges, and the angle opposite the north-west corner of the burying ground shall be a line starting from the first mentioned point and running south 30 deg. west, 18 chains, 50 links to the point five rods west of the burying ground and as discontinues

all the portions of the Old road or highway west of said line be, and the same is hereby reversed.

Application having been made to the undersigned, Commissioners of Highways of the town of Southampton, to examine a certain road leading from Budd's pond, at Noyack, to Bridge-Hampton, known by the name of Millstone road, or Loper's path, and to ascertain whether said road is a public highway, and if so to define the same.

Now therefore, we the said Commissioners having met in pursuance of previous notice, on the twenty-first day of April, 1863, did proceed to examine the said road, and after due deliberation decided unanimously that the said road is a public highway, and did define a portion of said road to be according to the following survey :

SUFFOLK Co., ss :

At a meeting of the Commissioners of Highways of the towns of East-Hampton and Southampton, in said County of Suffolk, held in the said town of Southampton, on this ninth day of November, 1863, it appearing that the highway upon the line between the two said towns, leading from the high water mark on the shore of the Atlantic ocean to the main country road leading from Bridge-Hampton to East-Hampton, and now used as a highway, was laid out but not sufficiently described on the 25th day of June, 1695, as will appear from a record made thereof in Liber A, page 128, of East-Hampton town records, and in Liber A, No. 2, page 170, of Southampton records, which said records are both in words and figures identical and are as follows : "It is also agreed upon by us above named in the

behalf of each town that there shall be a highway from the stake at the beach to ye above said pine tree on the north side of the Island and East-Hampton, leaving out to the eastward of the above bounds or line one pole wide of land from ye said stake at the beach to the above said pine tree, and Southampton to leave out one pole wide of land from ye stake to ye above said pine tree to the westward of the said bounds or line to be for a highway forever."

Now therefore we the undersigned, the Commissioners of highways of said towns, do order that that part of said road herein before described, as extending from the Ocean to the main country road, be ascertained, described and entered of record in the Town Clerk's offices of the said towns of East-Hampton and Southampton, according to a survey which has been made under our directions, as follows : commencing at a stake at high water mark on the south beach (marked A on the map) and running across the beach and Wainscott plains on the line of an old ditch heretofore known as the line, on a course N. 35° W. 30 chains and 73 links to a stake near the house of Herman Strong, (marked 1 on the map), thence on the same course 15 chains and 33 links to a stake in the centre of the lane opposite the south end of Hervey Hedges' bars (marked B on the map) ; thence on a course N. 29° deg. 45 min. W. 44 and 90 links to a stake in the lane on a line with the front of James Strong's barn distant from the east corner 98 links (marked C on the map) ; thence N. 25° deg. 15 men. W. 17 chains and 55 links to a stake (marked D on the map) ; thence N. 30° W. 16 chains 43 links to a stake opposite to the northwest end of the Wainscott hollow highway (marked E on map) ; thence N. 32° deg. 15 min. W. 6 chains 22 links to a stake (marked F on map) ; thence N. 32° W. 6 chains and 98 links to a stone said to occupy the former place of

a white oak tree, which stone is one rod from the corner of Levi Hedges' land, and marks an angle in the boundaries of the towns of East-Hampton and Southampton (marked G on map), which said survey follows the line between the towns aforesaid. And we do further order that the line of said survey be the centre of said road and that the said road be of the width of two rods, as originally laid out, the same to remain a highway forever:

1796, and came to this town in 1818, and acted for several years as a teacher in the schools of this village; in 1821 he was married to Abbie, daughter of Thomas Sayre; in 1825 he was elected to the office of Town Clerk, which office he held for a period of twenty years; in 1833 he was elected Justice of the Peace and continued to serve in that capacity and Supervisor for the remainder of his life. As a member of the community he was held in the greatest respect by his fellow citizens, and was faithful to the fullest extent in the performance of the duties of the offices intrusted to his charge; as a friend and neighbor he was affable and kind; pleasant and open in manners and wholly without the lofty reserve and mock dignity which generally accompanies real inferiority. And this notice is entered by one who having been treated by him with kindness has reason to revere his memory, and no better proof of his excellence and capacity need be produced than the fact that for a period of forty years he enjoyed the complete confidence of the people of the town of Southampton.

PAGE 301. Minutes of special Town Meeting held on the 28th day of February, 1868.

Present, Justices James H. Foster, Edward Griffin, E. J. Ludlow, P. R. Jennings. Wm. S. Pelletreau, Clerk.

A report from the committee appointed by the annual Town Meeting held April 2d, 1867, was delivered, the substance of which was that the South Side Railroad Company is at present unprepared to make any definite proposal for building the road through this town.

Resolved, that the Supervisor of this town, and his successor or successors in office, be authorized to issue bonds upon its credit, bearing interest at the rate of 6 per cent per annum, to aid in the extension of the South Side Railroad from the western boundaries of this town to the village of Sag-Harbor, and that said bonds, or the proceeds of them to the amount of \$4,000 per mile, together with a guaranteed right of way through said town, be and hereby is donated to the said Company, on condition that

they signify their acceptance of the same within sixty days after their receipt of a copy of this resolution, and also agree to commence the extension of said road from west bounds of town to the village of Sag-Harbor within one year from the first day of January, 1868, and to complete the same within three years from the said 1st day of January, 1868.

Resolved, that in case the said Company refuse the donation and its terms, as provided in the foregoing resolution, then the same amount, subject to the same conditions, be given to any local company that shall first accept the same, either to build a road connecting with the South Side Railroad or from Riverhead from Sag-Harbor, in which latter case the road shall touch a point near the head of Quantuck creek, at or about where the road from Riverhead to Quogue crosses the so-called Country Road which runs from Canoe Place to West-Hampton.

Resolved, that a committee of seven persons be appointed by the chairman to obtain the necessary legislation, and to confer with the South Side Railroad Company, and also to present a copy of these proceedings to them, and to any meeting called by the citizens of East-Hampton or Brookhaven, having for its object the building of a road to Sag-Harbor.

The committee were Wm. H. Gleason, Stephen B. French, Orlando Hand, Henry E. Huntting, Benj. H. Foster, Isaac C. Halsey, Daniel B. Cook.

Resolved, that the Company, in their discretion, be authorized to extend their road to Speonk, in case of a road being built from Sag-Harbor to Riverhead, and that the sum of four thousand dollars per mile is donated the same as to other portions of the road.

The above is a true copy of the minutes of the meeting held February 28th, 1868.
